### HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 173 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 173 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. ### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Applicant argues "Chung describes that "when executing a loop, the instructions are fetched by the first processor into the loop buffer during the first iteration" and that for the rest of the iterations "the instructions are sent from the loop buffer to the decoder without requiring fetching from main memory." ... Therefore, Chung does not describe the amendment in claims 7 and 18, as amended, of ... wherein the second processor fetches the supported instruction and loads the supported instruction in the decode logic of the first processor. Chung also does not describe or suggest the recitation in claims 11 and 22, as amended, of ... wherein the second processor fetches the supported instruction and loads the supported instruction in the decode logic of the first processor."

The examiner agrees for the following reasons. The examiner agrees with applicant's description of looping operation from Chung. Chung described that the first iteration of a loop operation is fetched by a first processor and stored in a loop buffer of the first processor. Chung described that subsequent iterations do not require fetching and the instruction is loaded from the loop buffer of the first processor to the decode logic of the first processor. Thus, Chung failed to teach the limitation "wherein the second processor fetches the supported instruction and loads the supported instruction in the decode logic of the first processor."

The next closest prior art that has been found by the examiner is a combination of two references describing a processor and coprocessor operations. So (U.S. 6,944,746), previously cited by the examiner, shows a first processor fetching and

decoding instructions, detecting an unsupported coprocessor instruction, and executing the unsupported coprocessor instruction on the coprocessor in figure 5. A combination with either Gorishek, IV et al. (6,480,952), previously cited, or Mine (U.S. 7,200,741), newly cited, results in the coprocessor of So having the functionality of being able to fetch instructions. However, the combination fails to teach "loads the supported instruction in the decode logic of the first processor" as neither reference disclosed having the coprocessor send fetched instructions to the main processor. Thus, either combination failed to teach all of the limitations of the independent claims. Therefore, the independent claims are allowable.

The examiner also notes that the IDS submission crossed out hasn't been considered because an incorrect patent number was provided.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
